

## Healthy Congregation Tip: Follow Your Heart

We have a Healthy Congregation Tip to make you smile as you approach our Annual Meeting on Sunday.

***Tip:*** Follow your heart. (Do the work that calls to you—especially when in mission-oriented projects!)

***Reflection:*** Change the position of people in a system, and they will function differently. Change their functioning, and they will appear to have different natures. In emotional environments, people don't live by their nature alone.
