

## **Did You Know...?**

***First U (and you!) are part of a national religious movement.***

**April 3 & April 10, 2016**

First U is one of more than a thousand Unitarian Universalist churches that are flourishing in the United States.

These congregations are interconnected by one central organization, the Unitarian Universalist Association (UUA). The UUA is elected by and serves UU members nationally by providing trainings, publishing books and curricula, and by leading social justice movements.

In support of the UUA, First U opts to pay membership dues. This means that when you make a financial gift to First U, you're supporting the good works in our own community and contributing to a larger collective that values the inherent worth and dignity of every person.

That means that we - First U, and you, yourself! - are part of a tidal wave of love, peace, justice, and equality that is transforming our world for the better. That sure feels like something to support and be proud of!
